Work Release Module

The work release module tracks participant detail and financial obligations. The inmates trust account is charged with his per diem charge, and other reoccurring program fees like weekly laundry. These fees are collected as deposits and made to the inmate trust. You can keep track of the inmates that are not currently at the facility because they have reported to work

Function	Description
All Workers Out	Displays a list of all inmates that are currently out
Workers Out - Employer	Displays a list of inmates who are currently out to work for a specific employer. Click the drop-down arrow and choose the employer from the list.
Workers Out - Work Type	Displays a list of inmates who are currently out to work for a specific work type. Click the drop-down arrow and choose the work type from the list.
Workers Out - Auto	Displays a list of inmates currently out to work with a specific automobile. Click the drop-down arrow and choose the make, model, and color from the list.
